# Roasted potatoes

For 2 persons

800 g waxy potatoes

1 onion

approx. 30 g clarified butter

Salt or roast potato seasoning

**Roasting time:** approx. 20 minutes

**Preparation time:** approx. 10 minutes

approx. 380 kcal per person

1. Peel potatoes, cut into cubes of approx. 2 cm. Peel onion and dice finely.
2. Place HotPan on stove and set it at highest level. Switch on Audiotherm, fit it on Visiotherm and turn it until the roasting symbol appears. As soon as the Audiotherm beeps on reaching the roasting window, set at low level and add clarified butter to the HotPan.
3. Spread potato cubes evenly in HotPan, cover with lid. Using Audiotherm, roast until turning point of 90° C is reached.
4. Toss potatoes, add diced onion and season, cover again, unscrew Visiotherm so that excess moisture can escape.
5. Roast the potatoes approx. 20 minutes all in all, tossing occasionally. Finally, remove lid entirely and roast the potatoes about 2 minutes crispy and done.

**AMC Products:**

HotPan Prime 28 cm

Audiotherm

A **Swiss rösti** is prepared quite similarly:

1. Rasp 500 g of peeled potatoes (primarily waxy). Squeeze them in a clean tablecloth well, so that the potatoes are dry. Season with approx. half a teaspoon of salt.
2. Take clarified butter in a HotPan 24 cm, switch to highest level and heat up without lid until it is hot, add the potatoes, press lightly with a spatula and cover. Using Audiotherm, roast at highest level until roasting window is reached.
3. Switch to the low level and roast further until turning point at 90° C is reached.
4. Check if the Rösti detaches itself easily from the pan and is sufficiently browned. Turn Rösti by the help of a plate, if needed add some more clarified butter.
5. Remove the drops inside the lid with kitchen towel, cover again. Roast the second side without Visiotherm until golden brown. To the end, remove the lid completely and roast crispy, flip again if desired.

# Potato vegetable tortilla

## For 4 persons

2 medium-sized potatoes  
1 onion  
100 g zucchini  
200 g aubergine  
400 ml olive oil

1. Whisk egg with cream and pudding powder. Peel apple, deseed, cut into thin slices.
2. Roll out puff pastry in a circle with Ø of approx. 24 cm. Cut out a circle of baking paper that is a little bigger than the dough circle (so that the tart can later be taken out from the pan easily, using the paper).
3. Place pastry base with the baking paper in the HotPan, pierce with a fork closely. Set stove at highest level, place Navigenio overhead, set at high level. While the Navigenio flashes red/blue, enter approx. 3 minutes (with induction approx. 2 minutes) in the Audiotherm and pre-bake.
4. Switch off stove (leave induction at approx. 100 Watt), sprinkle almonds on the dough, spread apple slices on it, pour cream mixture over it. Place Navigenio again, set at high level. While the Navigenio flashes red/blue, enter approx. 2 minutes in the Audiotherm. Bake the apple tart until the surface gets the first brown spots.
5. Then set Navigenio at low level and using the Audiotherm, bake approx. 5 minutes until done.

# Apricot Galette

## For 8 pieces

### Dough:

180 g spelt flour  
70 g ground almonds  
80 g brown sugar  
125 g soft butter  
1 egg

### Topping:

150 g cream cheese  
2 tbsp. brown sugar  
1 sachet vanilla sugar  
2 tsp. natural lemon zest (grated)  
1 egg  
350 g apricots  
25 g chopped pistachios

### Baking time:

approx. 35 minutes

### Preparation time:

approx. 15 minutes (excluding cooling time)

approx. 395 kcal per person

### AMC Products:

HotPan Prime 24 cm  
Navigenio  
Audiotherm

### Dough:

- Knead all ingredients to get smooth short pastry, wrap in cling film and let it rest in the refrigerator approx. 1 hour.
- Roll out dough on a sheet of baking paper to get a circle of size 28 cm (using lid 28 cm). Additionally, cut out a circle of baking paper of diameter 24 cm (using lid 24 cm). Place this circle in the middle of the dough base.

### Layer:

- Mix cream cheese with sugar, vanilla sugar, lemon zest and egg. Clean and deseed apricots.
- Place HotPan on Navigenio, set it at level 6. Switch on Audiotherm, fit it on Visiotherm, turn it until the roasting symbol appears.
- As soon as the Audiotherm beeps on reaching the roasting window, switch off Navigenio, place dough with the baking paper circle down in the HotPan. Remove the sheet of baking paper.
- Spread cream cheese mix on the dough, likewise the apricots, finally sprinkle pistachios over it. Fold the protruding dough over the edge of the galette using a tablespoon.
- Place HotPan on a heat-resistant surface, place the switched off Navigenio overhead. First, bake approx. 10 minutes using only the residual heat. Then set the Navigenio at low level.
- While the Navigenio flashes red/blue, enter approx. 25 minutes in the Audiotherm, bake until light brown.
- At the end of the baking time, let galette cool down approx. 10 minutes and then, using the baking paper, transfer to a plate carefully.

You can vary the topping in different ways quite well, with:

- Apple slices and chopped hazelnuts + cinnamon and lemon zest as seasoning in the cream cheese.
- Assorted berries and almond slivers + orange zest and a little orange liqueur for the cream cheese.
- Plum pieces and chopped walnuts. With this, cinnamon and lemon zest go well in the cream cheese likewise.

### AMC Products:

HotPan Prime 32 cm  
Audiotherm

### Tip:

1. If you do not like raisins or would like to pep up the Schmarrn with something fresh, you can add blueberries over the batter.
2. If not eating together with children, the raisins can be soaked in rum.

1. Separate eggs, beat egg whites with salt until stiff. Mix together egg yolks, sour cream, vanilla sugar and flour.
2. Fold mineral water and beaten egg whites carefully into the batter.
3. Place HotPan on stove, set it at highest level. Switch on Audiotherm, fit it on Visiotherm, turn it until the roasting symbol appears.
4. As soon as the Audiotherm beeps on reaching the roasting window, set at low level and add clarified butter to the HotPan and spread it by swirling.
5. Pour batter in the HotPan, spread a handful of raisins over it, according to taste. Cover with lid and using the Audiotherm, roast until the roasting window is reached again.
6. As soon as the edges look baked and it doesn't shine anymore, divide Schmarrn in quarters and flip. Cover with lid and using the Audiotherm, roast once more until the roasting window is reached again.
7. Remove lid, sprinkle sugar over the Schmarrn, cut into small pieces, toss to caramelise everything until it is golden brown uniformly.
8. Dust Schmarrn with icing sugar and serve immediately.

- Whisk eggs in a plate, take flour and breadcrumbs in a plate each.
- Toss banana pieces first in flour, then in the whisked egg and finally in the breadcrumbs.
- Take deep-frying oil in the HotPan, cover with lid, place on Navigenio, set it at level 6.
- Switch on Audiotherm, fit it on Visiotherm, turn it until the roasting symbol appears. As soon as the Audiotherm beeps on reaching the roasting window, set at level 2, add bananas to the hot oil.
- Cover with lid and using the Audiotherm, deep-fry until the turning point of 90° C is reached.
- Remove lid, take out bananas, drain on kitchen towel.
- Best served immediately, sprinkled with cinnamon-sugar.

# Doughnuts (Frittelle)

For approx. 20 nos

1 kg flour  
1 cube fresh yeast  
500 ml lukewarm water  
1/2 tbsp. olive oil  
1/2 tbsp. sugar  
1/2 tbsp. salt  
800 ml deep-frying oil  
Sugar for tossing

AMC Products:

HotPan Prime 28 cm  
Navigenio  
Audiotherm

**Deep-frying time:** approx. 6 minutes

**Preparation time:** 20 minutes  
(excluding resting time)

approx. 410 kcal each

1. Take flour in a bowl, make a hollow in the centre. Crumble yeast, dissolve in the water. Place oil, sugar and salt in the hollow, add yeast-water. Process everything to get smooth, malleable dough. Cover and let it rest in a warm place until the volume of the dough has clearly increased.
2. Knead dough once more, divide into small portions. Roll out each portion into a small, round flat cake. Using hands, pull towards the outer part so that it becomes thinner in the middle than at the edge.
3. Take deep-frying oil in the HotPan, cover with lid, place on Navigenio, set it at level 6. Switch on Audiotherm, fit it on Visiotherm, turn it until the roasting symbol appears.
4. As soon as the Audiotherm beeps on reaching the roasting window, set at level 2, add the first batch of doughnuts to the hot oil.
5. Cover with lid and using the Audiotherm, deep-fry until the turning point of 90° C is reached.
6. Remove lid, flip doughnuts, keep uncovered, deep-fry until done and golden brown.
7. Remove first batch, drain on kitchen towel.
8. Deep-fry the remaining doughnuts in the same way, increasing the level of the Navigenio slightly if required.
9. Toss the slightly cooled down doughnuts in the sugar, serve warm ideally.

## Popcorn

**For 4 persons**

100 g corn kernels  
1 tbsp. peanut oil  
1/2 tbsp. sugar or salt

**Cooking time:**  
approx. 5 minutes

**Preparation time:**  
approx. 1 minute

approx. 80 kcal  
per person

**AMC Products:**  
HotPan Prime 24 cm  
Navygenio  
Audiotherm

Directly from the  
HotPan – mmmhh!

1. Mix corn kernels, oil and sugar or salt in cold HotPan, cover with lid.
2. Place HotPan on Navygenio, set it at level 6. Switch on Audiotherm, fit it on Visiotherm, turn it until the roasting symbol appears.
3. As soon as the Audiotherm beeps on reaching the roasting window, switch off Navygenio, remove Audiotherm.
4. During the cooking time, shake the HotPan vigorously and repeatedly until all the corn kernels have popped.
5. As soon as it becomes “quiet” in the HotPan, the popcorn is done and can be served.

**Tip:** Coco-caramel popcorn tastes really delicious. For this, first prepare the popcorn as described above. Then take 2 tablespoons of grated coconut with 6 tablespoons of sugar in a small pot, set at highest level. As soon as the sugar begins to melt, set at low level, stirring continuously, caramelise it. Mix it when still warm into the popcorn, ideally enjoy immediately.

Audiotherm

approx. 390 kcal per person

1. Make light cuts into the rounded side of the sweet chestnuts with a sharp knife. Cut out a circle of baking paper using a lid 28 cm.
2. Place HotPan on Navigenio, set it at highest level. Switch on Audiotherm, fit it on Visiotherm, turn it until the roasting symbol appears.
3. As soon as the Audiotherm beeps on reaching the roasting window, set at low level, place baking paper in HotPan and put in the sweet chestnuts. Cover with lid and using the Audiotherm, roast until the turning point of 90° C is reached.
4. Remove lid, stir chestnuts. Cover with lid again, set Navigenio at Automatic "A".

Enter 15 minutes cooking time in the Audiotherm, cook in the vegetable zone.

5. At the end of the cooking time, stir chestnuts once again. Cover with lid again and using the Audiotherm, cook chestnuts 10-15 minutes, depending on size, in the vegetable zone until done.
6. Let chestnuts cool just a little and ideally serve immediately.

# How it works

## User manual HotPan Prime

Please read this user manual carefully before you use the HotPan Prime for the first time.  
Keep the user manual and pass it on the next owner.

### Visiotherm

Visiotherm is your personal kitchen assistant that takes the guesswork out of cooking. Visiotherm indicates the temperature inside the pot during the cooking process, thus enabling you to control the temperature.

#### Roasting without added fat

- Heat empty, dry pot with lid at the highest level.
- Dab meat dry.
- The red indicator reaches the roasting  window after a few minutes.
- Remove lid and place meat inside.
- Reduce to low level.
- Cover again and wait until the red indicator reaches the turning point at 90° C .
- Remove lid, turn the meat and replace lid.
- Allow the meat to simmer at the lowest level (or switched off cooker) until the desired result is reached.

#### Cooking without added water

- Prepare and wash vegetables.
- Place vegetables dripping wet in cold HotPan Prime.
- Cover and set cooker at the highest level.
- The red indicator reaches the vegetable  window after a few minutes.
- Reduce to low level.
- The red indicator continues to move. The correct temperature is when the indicator is in the green area between the vegetable  window and the stop  window.
- When the red indicator enters the stop window, reduce the level further or switch off completely.

#### Deep frying

- Pour the oil for deep-frying into the cold HotPan Prime and cover.
- Set Navigenio at level 6.
- The red indicator reaches the roasting  window after a few minutes.
- Remove lid, reduce to level 2.
- Add the ingredients to be fried and cover again.
- Deep-fry until the red indicator reaches the turning point  at 90° C.
- Remove lid, turn the pieces, continue to deep-fry until they are golden brown.
- Take the deep-fried pieces out of the pan, place them on the kitchen paper to drain.

# Auditherm

The indispensable helper that makes roasting, cooking and deep-frying even easier.

AMC Auditherm is the perfect accessory for the Visiotherm. The Auditherm provides an audible reminder for the items displayed on the Visiotherm. As a result, cooking becomes child's play!

## Perfect for all stoves

**Gas, electric or induction? Whichever type of stove you have - the HotPan Prime is ideal for all types.**

- Stove zone and HotPan base should be the same size as far as possible. If the HotPan is too small for the zone it will consume unnecessary energy. It can become too hot and may harm the removable handle.
- The same applies to gas burners, when flames flicker up around the sides of the HotPan.

Make sure the diameter of the flame or the electric hot plate does not exceed that of the HotPan base.

Find more detailed information about cooking on the different stove types in "Our Cookbook".

## Removable handle

### How to detach and fit the handle

The removable AMC handle is a handle that doesn't know that it can be taken off ... because it just doesn't feel like it can. Detaching and fitting the handle is smooth and simple!

#### To detach:

Using your fingertips, lift the tab on the underside of the handle to unlock it ①, then pull the handle off the bracket ②.

#### To fit:

Place the handle on the bracket ③ and press the tab down to lock the handle in place ④.

Easy storage for every kitchen's size!

#### Removable handle – care & handling

The AMC removable handle is a very valuable element, designed to perfectly complement our range of pans. To preserve its quality appearance, high functionality and to avoid accidental misuse, we recommend storage in the provided storage compartments. Avoid dropping as well contact with sharp objects. Proper care & handling will ensure prolonged durability.

## Care and cleaning

Every new HotPan Prime should be cleaned before initial use, so as to remove any residual polish dust or foreign bodies.

### Tips for a long-lasting beautiful HotPan Prime

- Do not allow any food residues to dry! After use, immediately fill the HotPan with water and loosen food residues.
- Clean with Clean1 Magic Foam or Stone. Clean1 also removes stubborn stains quickly and easily.
- Never use scouring agents or abrasive sponges! Clean all shiny surfaces with Clean1 Magic Sponge. Always use non-abrasive sponges for cleaning.

### Into the dishwasher!

- The HotPan Prime is suitable for the dishwasher. However, cleaning by hand with AMC Clean1 is always preferable and will help to protect the surface.
- Use only a standard household dishwashing product suitable for stainless steel – in the recommended dosage.
- A prewash will help with heavily soiled stainless steel components.
- Remove the handle. Place the HotPan body in the dishwasher like a pot or soup plate and place the handle in the cutlery basket with the open part facing downwards, so that the water can run off.

Find more detailed information about cleaning in AMC Clean1 maintenance and care instructions or pages 52-55 in “Our Cookbook”.
